Dear MR. Snow:

I am here on the South fork river. Its beauty ~~is amazing~~ and splendor has inspired me to write this.

Please consider this letter a response to the revised CALFED plan -

I oppose CALFED's plan to increase surface H₂O storage in the central valley by raising existing dams or building new off-stream storage reservoirs. CALFED's plan to raise Shasta dam would flood segments of the upper Sac. & McCloud rivers. CALFED's proposed sites of off-stream storage reservoirs would require massive H₂O diversions from the Sac. River.

I urge CALFED to expand H₂O efficiency conservation, & reclamation programs to stretch our existing H₂O supplies, instead of ~~building~~ new dams & canals.

Do I support CALFED proposed restoration goals for the Central
